

CAREER FAIR 25

Theme: “Unlocking Potential: Bridging gap between Students and Industry for Career Growth”

WHAT WILL THIS THEME EMPHASIZE?

On the importance of connecting students with real-world industry opportunities to help them develop the skills, knowledge, and networks needed for successful careers. It suggests that students often have untapped potential, which can be realized by fostering closer collaboration between educational institutions and industries.

READ ME FIRST

Career Fair Started back in 2000 at the University of Dar es Salaam as a platform for university students to learn soft skills needed in the market. Engaging all students around Dar es Salaam universities later on spread to Morogoro and Mwanza depending on the financial capability of the year as well as the stakeholder's strategic focus.

Until 2023 Career Fair declared to operate in 7 different regions, Dar es Salaam, Dodoma, Iringa Mwanza, Morogoro and Arusha. For the past two (2) years, we have managed to reach 16,663 in seven regions.

The program

Career Fair is an annual event organized by AIESEC in Tanzania that seeks to bring employers(companies) and prospective employees(students and graduates) together through an informal but interactive gathering. Through this event, many companies are brought together in one location where students get to explore their career options and use this platform to develop competencies needed in the increasingly competitive globalized world.
